Chantilly, VA 20151-1010

The GTSI Agility Mobile Office. Your IT infrastructure in the field.

Take the office with you, even in an emergency, with GTSI Agility™ Mobile Office. By providing real-time access to people via Voice over IP and e-mail, and real-time access to data via the Web—even in the most extreme environments—GTSI Agility Mobile Office gives you the same capabilities in the field that you depend on at work. Whether you're deployed globally or locally, GTSI Agility Mobile Office is compact, portable and ready anytime. And because it's built on a foundation of highly reliable HP components, it lets you connect to people and data easily and securely, no matter where you go.

Instantly deployable. Infinitely scalable.

The GTSI Agility Mobile Office is easy to move and ready to respond to an emergency whenever you are. Once GTSI integrates your mobile office, we can deliver it directly to you, or we can store the solution in our state-of-the-art integration and distribution center, where our expert systems engineering and logistics team ensures that your solution remains operational and up to date. Whether your field-deployment team includes two members or 250, your system can be expanded or contracted as needed. Your solution even comes with a single point of contact for warranty and technical support. To see how GTSI Agility Mobile Office works in the real world, visit GTSI.com/Agility.

GTSI & HP. Teaming for better government technology.

GTSI has been serving government IT needs for more than 20 years. The innovative technical specialists that make up our exclusive GTSI Technology Teams™ support a wide range of integrated IT solutions. And when it comes to HP reliability, the experts on our GTSI HP Technology Team™ know HP technology inside and out.

GTSI Agility Mobile Office. Built on a strong HP foundation.

GTSI offers these logistics services for the Agility Mobile Office solution:

- Storage of your turnkey solution at controlled GTSI facilities
- Managed technology updates and maintenance (including battery recharging)
- Deployment on demand

Why HP?

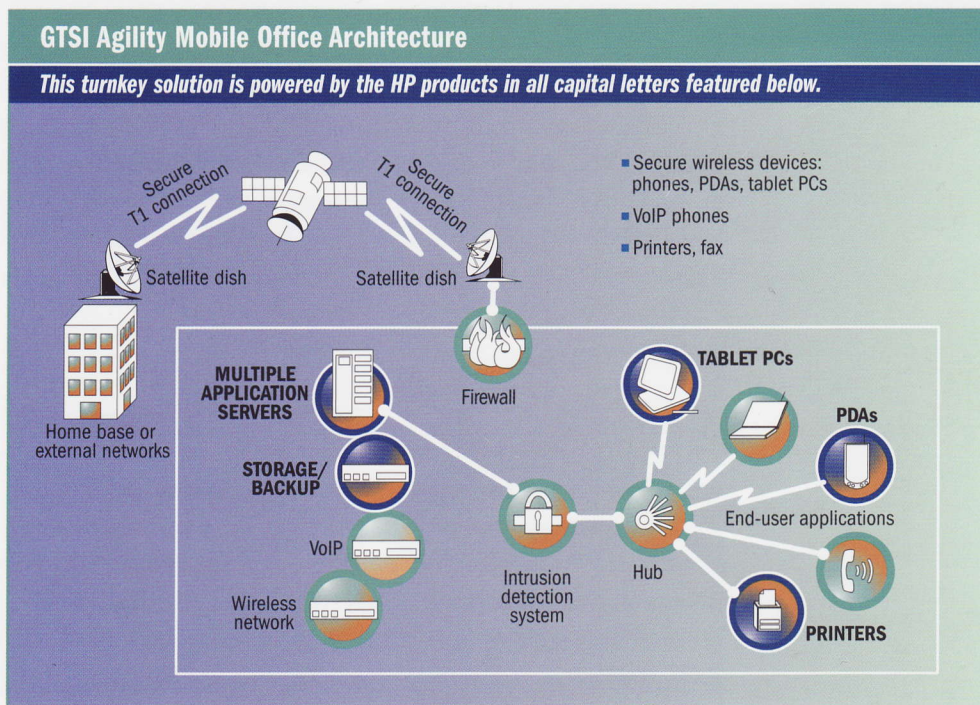

- Market leader in supercomputing, servers, storage and printing
- Products allow seamless system management across global networks
- Trustworthy partner of top IT manufacturers
- Affordable, compatible, easy-to-use technology trusted by more than a billion people globally

Tested and validated for a compatible mobile office.

- **HP ProLiant servers** provide a highly reliable, proven disk infrastructure; tremendous power in a small form factor; and fast data access.
- **HP StorageWorks** is the most widely accepted storage solution for its flexibility, dependability and expandability. These reliable HP backup systems provide speed and capacity to ensure data integrity, even in harsh conditions.
- **HP LaserJet printers** come in a wide variety of reliable models with robust paper-handling

capabilities and durable printouts. Some models offer walk-up copier functions, color scanning, fax capabilities and digital sender for workgroups.

- **HP iPAQ Pocket PCs** are the expandable, industry-leading PDAs featuring Microsoft Windows CE 2003 with multiple options like Internet Wi-Fi card and cellular phone card.
- **HP Tablet PCs** offer mobile pen-based input. This ultra-lightweight (3lbs/1.36kg) tablet PC has integrated wireless LAN with a removable keyboard to change instantly from tablet to notebook PC.

GTSI & government. Two decades and counting.

Through 20 years of change—technologies, jobs, administrations—GTSI has remained the government's most reliable IT product and solution provider. We deliver the best technology brands and offer the broadest range of IT products in the most diverse collection of contracts. We've assembled teams of experts to solve any government IT challenge, no matter how complex. And we even offer flexible financing options, competitive pricing and global integration and distribution capabilities to deliver the right solution where you need it.
